“Selling your Business: Preparing for Success”

Mark has been advising on the purchase and sale of private companies for over 12 years. In this session, Mark will walk us through the steps in the M&A process and highlight some key points in preparing for a successful sale. He looks forward to bringing the subject to life with examples from actual transactions that he has worked on over the years.

Preparing for the sale of one’s business is often given little consideration by entrepreneurs that are focussed on the many other day-to-day priorities demanding immediate attention. This session will give us the opportunity to reflect on how being prepared for a future exit can be part of an active value creation process that rewards shareholders in the near term.

3. Notice of upcoming meetings and/or topics of interest
4. Any Other Business
